Bring your CRITTERS!!!! Large and small animals permitted! Home has cute curb appeal, right when you pull up you love the covered porch! Inside the home has so much charm with arch ways, wood floors, 10 ft ceilings and 8 foot interior doors. Right off the entry way is a formal dining room and right across is an Office/Living Room. The great room has pretty corner gas fireplace with shiplap. The kitchen sits just off of the great room with hickory cabinets, breakfast bar, and lots of counter space. Just off of the oversized 3 car garage is the laundry room and a half bath. Out the kitchen door is a large deck and stairs going to the walk out basement. The master suite is just breath taking with extra tall cathedral ceilings. There are two walk in closets and the master bathroom has duel sinks, corner tub and separate shower. Main level has another bedroom and a very large main bathroom. The basement has 3 bedrooms, 2 large family room areas. There is a wood stove with beautiful stone surround....
